

Pasadena City Hall Exterior Rehabilitation

City of Pasadena

Pasadena City Hall

City of Pasadena

- Listed in the National Register of Historic Places
- Bakewell and Brown, also the architects of the San Francisco City Hall, won the Pasadena City Hall design competition for their successful blend of classical and Mediterranean motifs as well as their successful response to local tradition and climate. Pasadena residents (45,000 population) floated a \$3.5 million bond to build a civic center that included the city hall, the civic auditorium and the library. City Hall first occupied on 27 December 1927, has served as the city's main administrative building for the past 75 years.
